## NORTHERN MISSIONARY WILL SPEAK

Rev. Marshall Calverley, the mission pilot of the Northern Canada Evangelical Mission will be at the Evangelical Free Church on Tuesday, November 6th at 8:00 P.M. He will be showing colored movie films of the Mission's work amongst the Indians and will tell you of the part that aviation plays in reaching the northern regions of Canada with the Bible.

## TOWN SURVIVES HALLOWE'EN

The pixies and elves, witches and goblins were out in force last night and, as a result, the Town has somewhat of an unkempt appearance this morning.

Several streets were barracaded with an assortment of trailers, boxes, old tires, poles, bunches of shingles, etc; the fire siren was sounded a few times, traffic signs were removed and at least two autos were taken away and hidden. While the pranks have cost a certain amount in damaged property and in the necessary labor to clear up the debris, it was a night of good clean fun for the big boys. The smaller children also had "their night". They were to be seen on every street in all manner of weird costumes and staggering under a bag full of candies, peanuts, apples, etc.

While all hands seemed to thoroughly enjoy themselves last night, everyone is glad that the Hallowe'en season is over for another year.

## DISTRICT MASON'S HOLD CONVENTION

The District Meeting for Masonic District No. 2 was held in the Bassano Masonic Hall on Wednesday night with District Deputy Grand Master Rt. W. Bro. G.A. Simpson in the Chair. A record attendance of 103 attended the banquet, which was followed by the business meeting. Those attending included M.W. Bro. Ross S. Shepherd, Grand Master of Alberta; R.W. Bro. E.H. Rivers, Grand Secretary; R.W. Bro. G.A. Simpson, D.D.G.M. for District No. 2; R.W. Bro. G. Esmond White, P.D.D.G.M.; R.W. Bro. J. Fooks, P.D.D.G.M.; R.W. Bro. J.B. Wallace, P.D.D.G.M. and visiting brothers from Medicine Hat, Edmonton, Calgary, Brooks, Tilley, Bow Island and many other points in Southern Alberta.

In the election for District Deputy Grand Master for District No. 2 for 1957-58, the successful candidate was V.W. Bro. W. Noble of Medicine Hat.

## WINTER WEATHER HITS ALBERTA

A wild snow storm blanketed all of Alberta with snow and cold weather last Friday night and continued into Saturday. Highway traffic was slowed to a crawl on the icy roads for a short time but, by Saturday afternoon, traffic had resumed its normal pace. A few traffic accidents were reported but, except for a fatal train-car crash at Carsland, the accidents were of a minor nature and confined to some property damage.

A welcome chinook wind and a return to mild temperatures on Tuesday soon melted the snow and forecasts are for milder weather for the next few days. The storm brought home the fact that the usual Alberta winter weather is not far away and a mad scramble to clean furnaces and chimneys and put on storm windows is evident.

## OUR CHURCHES

## TOWN TOPICS

Mr. and Mrs. Jack Gamble motored to Great Falls, Montana on Wednesday. They expect to return about the end of this week.

\*\*\*\*\*

The Achievement Day part of the Bassano 4H Club meeting which had been planned for Friday, November 2nd has been postponed due to the fact that the trophies have not arrived. The regular 4H Club meeting will, however, be held as scheduled in the Armouries. It is hoped that as many new prospective members as possible will attend.

\*\*\*\*\*

Ye editor received a letter from John Brietzke from over Vulcan way this week. John and the family seemed to be in the best of health.

\*\*\*\*\*

The Town employees have completed a new skating rink for the smaller children and all that is required now is ice. This should eliminate the danger of the smaller children being injured by flying pucks, etc.

\*\*\*\*\*

A meeting of the Bassano Curling Club will be held in the Legion Hall on Tuesday, November 6th at 8:00 P.M. for the purpose of electing the executive and committees for the coming season. All curling enthusiasts are cordially invited to attend this meeting.

\*\*\*\*\*

The Willing Workers wish to express their appreciation to all those who helped to make their Turkey Supper a success.

\*\*\*\*\*

Miss Archibald of the Cultural Activities Branch of the Alberta Government expects to be in Bassano on Thursday, November 22nd to assist in forming a Handicraft Centre. The place of the meeting will be announced next week.

\*\*\*\*\*

Well, the snow is all gone again.

\*\*\*\*\*

ALLIE SAYS: Yesterday was one of her bad days. Couldn't keep her mind on her work. After popping the eggs into the washing machine, the soiled laundry into the oven, the baby out, she began bathing the cat. The climax came when, on leaving for the office, she picked up the keys to the family car, dashed out and climbed onto a tractor which happened to be parked in front of the house. Who said "A little nonsense now and then, is relished by the wisest men?"

## Bush pilot builds Pakistan airline under Colombo plan

(By A. R. Winston, Victoria, B.C.)

Canada long had to import men with technical and professional know-how to help open its vast wilderness areas, find and develop its resources and to instruct young people in the arts and crafts.

Now that practice has been reversed and Canadians are crossing the seas in increasing numbers to help other nations build and exploit their resources. The Colombo plan is an example on a gigantic scale of what Canadian capital and know-how is doing in Asia's under-

developed countries.

The bush pilot is as Canadian as the Mountie and it was to be expected that these pioneer fliers would be called on, sooner or later, to contribute their skill to air transport developments in other parts of the world.

In 1953 Pakistan sought such a man and requested the International Civil Aviation Organization's Montreal headquarters to recommend one. The choice fell on Maurice McGregor, a Victoria-born bush flying veteran with 25 years' experience as a pilot, chief pilot, chief of flight operations and director of overseas planning with major Canadian airlines.

McGregor arrived in Karachi in April of 1955 to find himself charged with setting up, almost from scratch, a national airline through a merger with a private line, in difficulties, with the beginnings of a government-owned line consisting only of some money and a few planes.

A bush flier in the classical tradition, McGregor had been prepared from his earliest years in the air for this job. His career—he is still only 45—has been an exception to the usual experience in aviation—an industry where a man is turned out when he is too old to fly or given limited responsibilities in other branches of the industry.

His experience, gained along the fjords of the rugged B.C. coast, in the interior, and on trans-Atlantic and Caribbean routes, was an incomparable background.

In Karachi he hired Netherlands pilots and experts of other nationalities to start the training program for crews and engineers, maintenance men and traffic controllers. His foreign experts trained Pakistanis in navigation, instrument flying and the use of communications.

Pakistan International Airlines came into existence legally late in 1954. Schedules within the country linked Karachi with Dacca, in East Pakistan, Peshawar, Rawalpindi, Lahore, Multan, New Delhi, Bombay and Rangoon. A 17-hour service linked Karachi with London, with the only stop at Cairo—the fastest London-Karachi service.

In 18 months, McGregor's job was done. The airline was running. It needed only experience, and expansion.

In Washington, McGregor convinced the Foreign Operations Administration of the growing airline's importance and arranged a grant of several million dollars for an expanded training scheme and a program of airport development.

Then Maurice McGregor took off for Canada. His export product, aviation knowhow, was in use overseas. And he had finished another phase in the education of an aviator.

### J. H. Clark heads livestock branch

One of the youngest livestock commissioners in the province of Manitoba's history was appointed recently. The Hon. C. L. Shuttleworth, Minister of Agriculture, announced that an order-in-council had approved the appointment of James H. Clark, 32, to succeed the late J. H. Conner as Livestock Commissioner.

Mr. Clark was born and raised on a farm northwest of Brandon. He graduated in 1950 with an Agriculture degree from the University of Manitoba. After a year spent in Roblin as an agricultural representative, he was transferred to the livestock branch as a beef cattle man in 1951. One year ago he was appointed assistant livestock commissioner.

World production of wood is about a billion tons a year. 3218

**YOUNG TITLIST** — Here's another entry in this country's fat of giving titles to sweet young misses. Four-year-old Mary Scelsa peers from a drum, after being named "Miss American Paprika". Mary, a native of Santa Ana, Calif., was picked out for the honor by a paprika processing plant in her town.

**CALM BEFORE A STORM** — Uncharacteristically calm, rock-n'-roller Elvis Presley sits quietly as he undergoes makeup tests in Hollywood for a TV show. The controversial singer, whose moans and motions set teen-agers to screaming, is due for an appearance on Ed Sullivan's show, October 28.

Published every Thursday by Hugh Pearce, Bassano, Alberta. Authorized as second class mail by the Postoffice Department, Ottawa.

# THE OBSERVER

BY HUGH PEARCE

Someone has sent me an advance notice of a meeting of all Boards of Trade and Chambers of Commerce in Alberta to be held at Calgary on Tuesday, November 20th. The purpose of this meeting is stated to be: To provide a clearing-house of NEW ideas, to stimulate the effectiveness of each Board or Chamber to its own community, to develop and promote a better appreciation of our "Free Enterprise" system, to hold round-table discussions on local, area and provincial problems, sessions on retailing, traffic, business protective measures, etc. and the exchanging of ideas and suggestions with fellow Board and Chamber workers. This meeting is sponsored by the Canadian Chamber of Commerce and the Alberta Associated Chambers of Commerce and Agriculture in co-operation with the Calgary Chamber of Commerce. The notice states that complete details of the meeting will be sent at a later date.

I haven't heard if any member of the Executive of the Bassano Board of Trade has received a copy of this notice or has heard of the meeting but, if any member has not seen it, he is welcome to read the copy I have on file.

This type of conference between similar organizations from all points in Alberta should be very instructive as well as interesting. It is always possible that the Board of Trade of some other district has solved a problem that may have puzzled you for some time and a discussion of that problem at a round-table conference may quite possibly lead to the solution you were looking for. I think it would be in the interests of Bassano and district if one or more members of the Executive of the Bassano Board of Trade planned to attend this meeting.

## DRINKING YOURSELF RICH

If you cannot refrain from drinking, why not start a liquor store in your own home? Be the only customer and you will not have to buy a license. To start off you give your wife \$55.00 to buy a case of whiskey. There are 240 drinks in a case. Buy all of your drinks from your wife at 60¢ per drink and in 12 days, when the case is gone, your wife will have \$89.00 to put in the bank and the \$55.00 to start up in business again.

If you live 10 years and continue to buy all your liquor from your wife and then die from the shakes, your widow will have \$27,008.37 in the bank - enough to bury you respectably, bring up your children, pay off the mortgage on the house, marry a decent man and forget she ever knew YOU!

-- From Insurance News.

## TRADE AND EXCHANGE

If I have a dollar and you have a dollar, and we trade dollars, each of us still has only one dollar. However, if you have a good idea and I have a good idea, and we exchange good ideas, each of us has two good ideas.

## KILLED IN ACTION

Men still die with their boots on, just as in the old days. Today, however, one of 'em is usually on the accelerator of their auto.

-- From The Safety Counselor.

## Learn to use your knees

One of the most useful habits a football player can develop is a high knee action, particularly the ends and backfielders.

This is a skill that will help you generate drive and power—the things you need when you try to smash through the line for important yardage. It's hard to stop a runner with a high, pumping knee action.

Next time you're carrying the ball, remember to concentrate on driving the legs hard and bringing the knees up high. You'll be surprised at how often you can break through tackles that would ordinarily have stopped you.

You can build an obstacle course that will help teach you to use your knees with the help of some rope and a few stakes. Cut the rope into lengths of about two yards, and then build a "ladder course" about 15 yards long. To do this, simply stake out these rope lengths about 16-18 inches off the ground and about 3-4 feet apart so that they look like the rungs of a ladder. Run through this as fast as you can—to do it, you'll really have to lift those knees high to get your feet over the ropes. This is a drill that takes a little time and effort to set up, but it will more than pay off for you and your team.

### A drill for netminders

Here's an effective drill netminders can use to sharpen their reflexes for the coming season.

Take your goaltending position, and have six or seven teammates form a semi-circle in front of you about 20 feet away. Each has a tennis ball, and they shoot or throw it at you one after the other at one-second intervals. They can work straight down the line, or to make it tougher, mix up the sequence.

This is a fine drill because you must make your stop and then immediately get set for another. Try it and see.

### Don't get rattled when rushed

One of the most costly mistakes in football occurs when a passer sees that he is being rushed and tries to get away a desperation

## Quick Canadian Quiz

1. Name the provinces in which the capital is also the largest city.
2. Of total retail sales, what proportion is handled by chain stores, what proportion by independents?
3. In value, what is the principal catch of the Pacific fisheries, of the Atlantic fisheries?
4. Canadians in what occupation have the highest average annual incomes?
5. In 1945 the federal government collected \$768 million in income taxes from individuals. What was the 1955 total?

### ANSWERS TO QUICK QUIZ

5. \$1,284 million. 3. Of the Pacific fisheries, salmon; of the Atlantic fisheries, lobster. 1. Alta., Edmonton; Sask., Regina; Man., Winnipeg; Ont., Toronto; N.S., Halifax; P.E.I., Charlottetown; Nfld., St. John's. 4. Medical doctors, with an average income of \$11,258 in 1953. 2. About 18 percent by chains, 82 percent by independents.

### Here's the Answer

## RIVETS

## By George Sixta

## POET'S CORNER

(From Allie's Annals)

## BLACK MAGIC

Precious things are done up in small parcels  
They tell me, and I believe it is true;  
But of what more precious could I think  
Than a few magic words from you?

There are different kinds of magic,  
The latest of these called 'black',  
But what's in a name, in the Publishing game,  
To provide us with joys we may lack.

Although I am no magician,  
Nor do I lay claim to great powers,  
But it's good to know, as through life we go  
We may gladden a few lonely hours.

With apologies to J. Flecker,  
Great Poet and grand old sage,  
I know he'd forgive, if he only could live  
In the wonders of this present age.

O friend unseen, unmet, unknown,  
Student of our sweet English tongue,  
Read out my words at night, alone;  
I was a poet, I was young.

And since I cannot see your face,  
And cannot shake you by the hand,  
I send my soul through time and space  
To greet you. You will understand!

-- Selected.

## HALLOWE'EN

Hallowe'en, Hallowe'en,  
Oh, what funny things are seen!  
Flying witches, fluttering ghosts  
And yowling cats that crouch on posts.

"Hallowe'en applos! Hallowe'en treats"-  
Children calling along the streets;  
Scarey-faces here and there,  
Bats and goblins everywhere.  
-- Katherine Elizabeth Garrick  
Age 9, Grade 5, Bassano School.

## IT'S TOO LATE TO THINK AFTERWARDS

According to E.S. Huestis, Alberta's Fish and Game Commissioner, the following are the ten commandments of hunting safety:

1. The cardinal rule of gun safety is to treat every firearm as if loaded. Keep safety on and never leave unattended.
2. Never carry a gun with a cartridge in the breach around camp or in your home. Accidents happen that way.
3. When crawling over ground or under fences, make certain that barrel and action is not fouled and cleared of dangerous obstructions.
4. Always keep the muzzle pointing in a safe direction.
5. Make sure of your target and never fire at anything you cannot identify. Don't be trigger happy and avoid being careless.
6. Never point a gun at anything you don't want to shoot. Fooling may have death as a sting.
7. Loaded firearms should never be left for anyone to pick up. Guns left in cars should be unloaded.
8. Never climb a fence or tree with a loaded gun. It is possible that the trigger may be caught.
9. Avoid shooting at a flat, hard surface or the surface of water. The bullet may ricochet.
10. Never drink while shooting. Too many joy-makers have been killed "in fun".

# World Happenings In Pictures

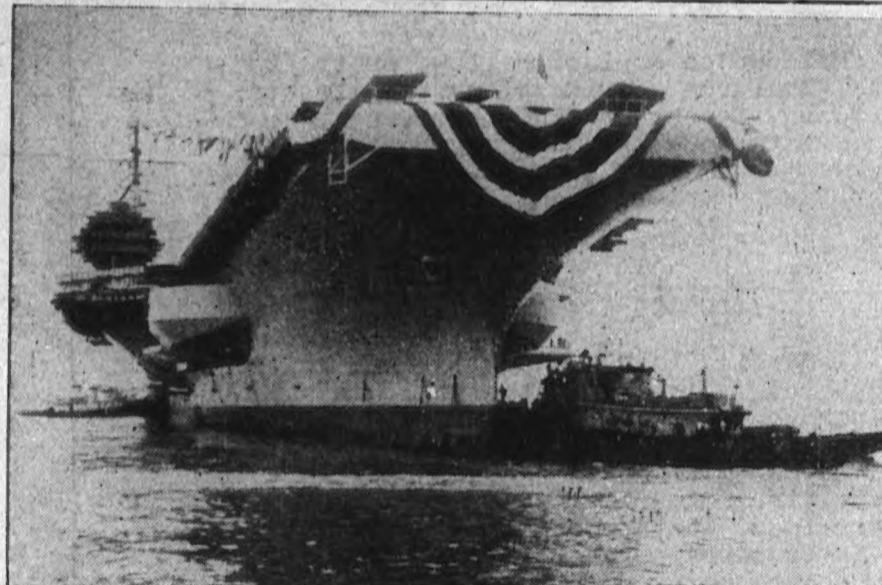

**STILL SMILING**—Motorist V. J. Taylor, 32, of Fort Worth, waits for rescue workers to free him—still able to smile—after he was forced off the road by another auto. He was trapped in the wreckage for more than an hour. He suffered several broken ribs and cuts.

**BUG-EYED PLATFORM**—Britain's Gloster Javelin, all-weather fighter, designed as a guided missile platform, powered by two Armstrong Siddeley Sapphire Turbo-Jets, is equipped with the latest in radar for day and night operation. This view of the Javelin gives it a bug-eyed appearance. Claimed one of the world's most powerful and extensively equipped fighters, its basic armament is four Aden 30 MM guns and it can operate at over 50,000 feet at speeds of more than 600 miles an hour.

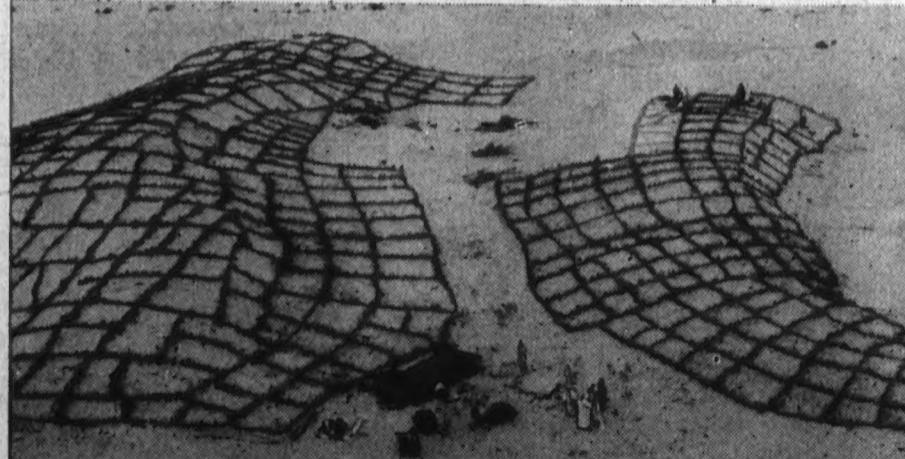

**CITY WORTH ITS SALT**—Harbinger of winter is the arrival of 5,500 tons of rock salt for de-icing Chicago's streets, an important phase of the city's traffic safety program. Giant "saltcellar" unloads a freighter in the Windy City, above, with Chicago's famed landmark, the Wrigley Building, in background.

**NEW AIRCRAFT CARRIER FOR U.S. NAVY**—The world's most modern aircraft carrier, the 1,046-foot USS Ranger, is pulled away from the dock by tugboats after being christened at Newport News, Va. The older sister-ships of the Ranger are the Forrestal, launched two years ago, and the Saratoga, launched a year ago.

**APPLE A DAY, ETC.** — Here's a porpoise with purpose—he's bringing an apple for the teacher. The "classroom" is at Marineland, Fla.

**BLANKET OF GRASS FOR PROTECTION FROM SAND**—Forming a dramatic pattern against the barren Sahara Desert, huge netlike squares of dried grasses are spread over sand dunes. The dunes are blanketed with the dried grasses to prevent the sand from being shifted by the wind to the nearby acres of fertile land.
